

HealthPRO is Canada's healthcare procurement services organization.

HealthPRO is Canada's healthcare procurement services organization. Through the commitment of more than 800 healthcare facilities across the country, we collectively bring together the most significant purchasing power ever assembled amongst Canada's hospitals.

Through our national aggregated purchasing power, we maximize savings across many high-quality products and services hospitals use every day, thereby contributing to the sustainability of our healthcare system. These include pharmaceuticals, medical supplies, support services, nutrition and food products, energy and capital equipment.
